Examination Score Report**

**CANDIDATE:** LOUIS LOPEZ

**CANDIDATE ID:** ~~XXXXXXXXXX~~

**DATE:** March 21, 1996

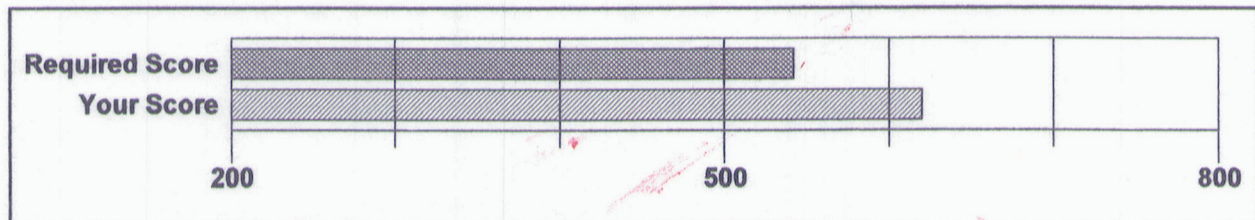

**REGISTRATION NUMBER:** 8DEDTT2390

**SITE NUMBER:** TXE

**EXAM SERIES:** 601

**EXAM VERSION:** 2

**EXAM:** NetWare 4.1 Design and Implementation

**PASSING SCORE: 542 YOUR SCORE: 620 GRADE: Pass**

You gave wrong answers to one or more questions covering the following objectives.

- Assess a company scenario to identify factors affecting the NetWare 4 design; identify the implications of those factors.
- Design administrative strategies for using container login scripts, Profile login scripts, Directory Map objects, Aliases, Organizational Roles, and Groups.
- Given a case company that will implement a NetWare 4 network, identify the types of information required to effectively create a design and implementation strategy.
- Given a company scenario and suggested guidelines, create a security strategy and guidelines that can be used by network administrators.
- Given a company scenario with a resource map, a location map, LAN topology, and WAN topology, use guidelines to determine the configuration of the time server types.
- Given a company scenario with mobile users and a draft Directory tree, develop a strategy for mobile users to access resources from two or more geographical locations.
