Subject: Thank You

Dear Louis & Robin,

Thank you very much for your prompt response to our ongoing email problem. Hopefully very soon we will have all the accounts both domestic and international working. It was nice to do the switch within 24 hours after waiting more than 45 days from previous attempts by our other external IT consultant.

I will forward you and email tomorrow with the Contact information for Clive Munday our Hong Kong General Manager.

I have been trying out the web based email and like the way it works.
(<http://mail.infrin.com/exchange>)

We will also need to check with our General Manager in Mexico for our fragrance company, Rolf Spelz.

As far as I can tell Francisco Ojeda our Director of Operations for Citrus in Mexico has everything working fine.

I will prepare for you tomorrow a list of all the remote Exchange users I can think of so we can plan on Monday to get these accounts reconfigured.

I hope you both are able to get some rest for the remainder of the weekend.

Best regards

David
